DATED; 30TH MARCH, 2007

P.C.;

1. The management has filed the instant writ petition calling in question the judgment of the tribunal which set aside the order of termination and granted reinstatement to the original respondent. By the present Civil Application the applicant/original respondent seeks direction against the original petitioner to keep one post in the subject of statistic, vacant during the pendency of the writ petition. In similar situation this court had directed that the appointment in the vacancy caused on termination of the original respondent shall be subject to the result of the writ petition. Hence I

choose to pass same order on this application. It is made clear that the appointment shall be subject to the outcome of this petition and the original petitioner shall be intimating the imcumbent who is to be appointed in the vacancy that his appointment shall be subject to the final decision of the writ petition. C.A. stands disposed of accordingly.
